PROFESSIONAL SUMMARY

Recent Computer and Systems Engineering graduate from Al-Azhar University, Cairo, with an academic background in programming, computer systems, networks, and web development. Experienced through academic projects in applying programming concepts and developing software solutions. Familiar with Python, Java, C++, JavaScript, HTML, and CSS. Strong communication, problem-solving, presentation, and teamwork skills. Seeking an engineering opportunity where I can apply my academic knowledge and technical skills in a professional environment.

EDUCATION

Bachelor of Engineering – Computer and Systems Engineering | Al-Azhar University, Cairo, Egypt | 2026

- Graduation Project: Designed and developed an E-Learning Platform.
- Studied programming, computer systems, networks, and other computer engineering subjects.

TECHNICAL SKILLS

Programming	Python • Java • C++ • JavaScript
Web	HTML • CSS
Fundamentals	Programming Fundamentals
Office	Microsoft Word • Excel • PowerPoint

ACADEMIC PROJECTS

Graduation Project – E-Learning Platform

- Designed and developed an educational platform as a graduation project.
- Worked with the team on developing features for an online learning environment.

Academic Programming Projects

- Completed academic projects and assignments using different programming languages and technologies studied during university.

COMMUNICATION & ADDITIONAL SKILLS

- Communication Skills • Presentation Skills • Problem Solving • Teamwork
- Ability to explain technical concepts clearly.

TEACHING / COMMUNICATION EXPERIENCE

- Previously explained programming concepts to learners using clear and easy-to-understand examples.
- Helped learners understand basic programming concepts and solve programming exercises.
- Developed communication and presentation skills through explaining technical topics to others.
